Indiana newspapers are adopting in part the spelling reform advocated by the Carnegie spelling board, as indicated by President Roosevelt. They will use 150 of the 300 words as spelled by the board.

The six best selling books in New York last week were in the following order: "A Fighting Chance," Robert Chambers; "Coniston," Winston Churchill; "The Awakening of Helena Richie," Margaret Deland; "Buchanan's Wife," Justus Miles Forman; "The Incomplete Amoralist," E. Nesbit; "The Tides of Barneget," F. Hopkinson Smith.

The 27th anniversary of the founding of Boston was informally observed Monday by Mayor John F. Fitzgerald and members of the city council. Accompanied by heads of departments and others, they sailed down the harbor in one of the city steamers. The anniversary was marked also by the formal opening of the official bureau of publicity. It was designed to spread the industrial possibilities of Boston. Thomas F. Anderson, a well known newspaper man, was appointed director of the bureau by Mayor Fitzgerald.

Rear Admiral Sir Edward Chichester, who commanded the British squadron at Manila during the Spanish-American war, died at Gibraltar Monday of pneumonia. It was Sir Edward Chichester, according to the London Standard, who was the first to suggest to the Americans in Manila that a time when friction between Admiral Dewey and the German commander seemed likely to lead to serious consequences. An account of the affair, printed in a London paper, said that "when the American and German fleets were grinning defiance at each other in parallel lines, their decks cleared. The British Captain Chichester stolidly steered the British squadron between them, giving indeed an exhibition of calmness, tact and nautical good humor that probably saved a battle which would have resulted in disaster to the peace of the world."

TURBINES INSTALLED.

The Steamship Gov. Cobb Thus Equipped At Hoboken Last Saturday.

There was successfully completed at the works of the W. & A. Fletcher Co. in Hoboken, Saturday, the installation of the first Parsons marine turbine engines ever built in the United States. The ship for which they furnish power, the Governor Cobb of the Eastern Steamship Co., is the first built in the United States to be equipped with the turbine. Deck tests of the engines made Saturday afternoon showed them to be satisfactory, according to Andrew Fletcher, president of the contracting company. The big engines, which develop 5,000 horsepower, were quickly started, one after another and altogether and reversed, without the slightest sign of vibration.

Her hull, built by the Roach shipyard, at Camden, was brought to Hoboken several months ago. The work of fitting the engines and putting them on board has occupied large forces of men. Mr. Fletcher, who passed nearly six months in Europe making a study of the Parsons turbine, recently had the plant of the company enlarged, and personally supervised every detail of the construction.

With a length of 300 feet, a beam of 51 feet and a depth of 20 feet, 6 inches in the hold, the Governor Cobb registers 2,542 tons. She has three engines and three propellers. The center turbine is a high pressure engine, while the port and starboard turbines are low pressure engines. The vessel is built for a speed of seventeen and a half knots, and this, Mr. Fletcher is confident, she will easily attain.

In three turbines are 423,000 blades ranging in height from less than an inch to about five inches.

A bill in equity has just been filed in the Chancery Court of New Jersey by Walter Baker & Co. Limited, of Dorchester, Mass., the old Chocolate Manufacturers, against a recently organized New Jersey Corporation—the Walter E. Baker Chocolate Company—and Walter E. Baker, of Newark, one of the incorporators. The bill alleges that Walter E. Baker has been engaged in the hotel and liquor selling business on the outskirts of Newark, and that the Company incorporated under his name is engaged in a scheme for selling chocolate upon the reputation of the well-known House of Walter Baker & Co., and the reputations have established for the name "Baker" in that line of business.

While the cry for more settlers continues unabated from many portions of the country, Uncle Sam the meanwhile being busy with his immigration laws to insure a desirable class, economic and social developments in the United Kingdom indicate that emigration from it is going to increase largely in the future. Whether the United States can obtain these homeseekers is, of course, another question; but the experience of Dr. Bristol of this city, who has just returned from comparative investigation of the conditions under which the working man lives in Scotland, indicates that more and more homeseekers are anxious to leave Great Britain. Judging by Dr. Bristol's statements, a Republican campaign committee could not find enough to enslave over among the United Kingdom's laboring classes to furnish material for one page of campaign literature. The workingman there is dissatisfied with his environment and naturally wants to get away.

WASHINGTON LETTER.

[From Our Regular Correspondent.]

Washington, Sept. 19.—Lighted, heated and given power for its mills and factories by the common garden potato

—if that is not the achievement of New England in the next few years, it will not be the fault of the Agricultural Department. The potato crop of the New England states even now is no small item, the 200,000 acres devoted to its production, according to the reports of the Agricultural Department for 1905, having produced over 24,000,000 bushels, valued at something like \$18,000,000. But this is only an indication of what may be expected when the tuber is grown for the manufacture of denaturized alcohol, through which the power, heat and light are to be obtained. Realizing that New England, through her manufacturing and farming interests, both is in a position to benefit greatly from the production of commercial alcohol, the Agricultural Department has already set about developing those plants which can best be grown to contribute to the new industry, and has sent experts to Europe to study the big tuber which grows there, and to the Bryan section of wheat and transplanting it to this country. This European potato has small value as an edible, but being several times as large as the one seen in this country, it is naturally just what is wanted for the production of alcohol. It gives an immense yield, it being claimed that enough of them can be grown on one acre to produce as much alcohol as which means light, heat and power for a farm household for a year. The agricultural experts are enthusiastic over its possibilities, and as it is the day were approaching when a farmer's potato patch might also be his light, heat and power plant.

If in the near future, as is well within the range of possibility, a huge silver ball takes to dropping from the sky at the feet of startled and unexpected citizens, it should be understood that it is not the Bryan section of wheat and broken loose from its moorings and on a tour of inspection, but the very heaviest bit of war gear belonging to the United States Government, having witnessed the experiments of other nations in the development of military ballooning, has decided that it is time to get its hand in the game itself. Accordingly, the War Department is preparing for inactivity in the past, and has recently ordered from Paris an immense war balloon, entirely unlike anything of its kind in the world. Its most striking feature will be its silvery appearance due to a coating of aluminum dust on the exterior of the gas bag, which is intended to lead to serious consequences. An account of the affair, printed in a London paper, said that "when the American and German fleets were grinning defiance at each other in parallel lines, their decks cleared. The British Captain Chichester stolidly steered the British squadron between them, giving indeed an exhibition of calmness, tact and nautical good humor that probably saved a battle which would have resulted in disaster to the peace of the world."

Notwithstanding the argument as to whether the lot of the army man is or is not preferable to that of the man in the navy is still unsettled, the navy seems to have scored a point; since, as not many people know, Jack may now have his morning paper about as well as ashore. Two-thirds of the battleships of the navy are fitted out with small but thoroughly equipped and first-class modern printing plants, which turn out good readable newspapers at such intervals as the editor deems advisable, or when need is felt that the crew should be kept up to date. The presses and other machinery are supplied by the government, which makes no charge for their use, the only expense being a trifling one for ink and paper. It is held that such an element in the ship's life helps to break the deadly monotony and makes the men more contented.

It is held that such an element in the ship's life helps to break the deadly monotony and makes the men more contented.

Notwithstanding the argument as to whether the lot of the army man is or is not preferable to that of the man in the navy is still unsettled, the navy seems to have scored a point; since, as not many people know, Jack may now have his morning paper about as well as ashore. Two-thirds of the battleships of the navy are fitted out with small but thoroughly equipped and first-class modern printing plants, which turn out good readable newspapers at such intervals as the editor deems advisable, or when need is felt that the crew should be kept up to date. The presses and other machinery are supplied by the government, which makes no charge for their use, the only expense being a trifling one for ink and paper. TWICE-A-WEEK

Over in Kennebec county—Waterville in fact—there has been a recount the result of which the Republicans gain a state senator. Is it not the iron of fate (in view of Cyrus W. Davis' sensational statement that there would be investigations all along the line) that the first should result in the overthrow of a Democratic candidate who was apparently elected by a good margin?

Mr. Gompers says that the fight the Second Maine District isn't finished yet. To which the Portland Press significantly rejoins, perhaps not, but Gompers is.

Division Commander Hayes, commanding the Maine Sons of Veterans, has issued orders No. 6 in which he speaks of several camps that are in prospect of organization during the fall and winter months. Report blanks for the September quarter are also sent out and camps ordered to make returns to the division secretary-treasurer, E. K. Gould of Rockland. The statistical report which is included in the orders shows that the division made a net gain of thirty-nine members for the quarter ending June 30, making the total membership in Maine 1665. The financial report of the treasurer also shows the finances to be in good condition with a balance of nearly \$299 on hand.

Oct. 6—Knox Pomona Grange will meet with Pleasant Grange at West Rockport.

Oct. 10—Portland, Maine.

Nov. 15—Rockland, Annual fair of Congregational church.

Nov. 21—Universal fair.

The Relief Corps have resumed their Thursday night suppers.

Hawson's concrete crew is now laboring on Middle street.

Austin Martin is having his vacation from E. B. Ingraham's market.

Wednesday and Thursday are the big days at the Union fair next week.

H. M. Wise is acting as cashier for the Rockland Knox County fair.

C. M. Kallach is having his vacation.

President Thurston of the North Knox Fair Association has been a busy man in this city during the week.

It's Grand Army Day at the Union fair next Thursday. All the old "vets" who can possibly go will be there.

The fifth annual cattle show and fair given by Pleasant Valley Grange takes place Oct. 2-4. The committees are already at work.

Mrs. Alice Philbrick, Beech street, is chairman of the committee who will serve supper at the Congregational church fair, Nov. 15.

The annual fair of the Universalist church will be held Nov. 21. This year it will be a "sample" fair. You'll find out what that means in due season.

We are indebted to John N. Ingraham, formerly of the Rockland, a southern newspaper with many interesting features.

The vacant store in the Y. M. C. A. building, formerly the office of the Western Union Telegraph Co., will be occupied about Sept. 25 by Miss Meagher, milliner.

Mrs. E. W. Thurlow states that she has been in the ice cream business 25 years, and that her August sales this year were larger than those of any previous August.

Louis Hatch of Damariscotta, who was formerly employed in S. K. Hatch's lunch room, has a position in Paoli, Penn. He is engaged in electrical work. Wonder if he will find any "smooth rivers" in Phila.

The winter supply of fuel wood has been stored away in the basement of the court house. Between the wood and the coal and the Sturges deputies' rum the place will be pretty well crowded by this time.

The Bennett Moulton Stock Co. play a three nights' engagement at Farwell opera house Thursday, Friday and Saturday of next week. The week-end matinee Saturday afternoon. This is a favorite company with our theatre-goers and always play to large houses.

John P. Hittney has a position on the steamship Mollusca, running between Philadelphia and Norfolk, Va. A few days ago he discovered a fire in the forepeak of the steamship and his promptness in having it extinguished made him the hero of the ship.

H. M. Bean's horses were not "behind the money" at the Monroe fair, not on Tuesday at least. In the 3-year-old class, half-mile heats, Mr. Bean's horse, Trump captured first money. The best time was 1:10 1/4. In the 3-minute class, Blanche B. took second money of a \$500 purse.

Daniel T. Shaw, formerly lineman for the New England Telephone Co., with headquarters in this city, has been in town this week in attendance upon supreme court. Mr. Shaw is now located in Portland and has been rapidly promoted in the electrical service since leaving Rockland.

According to announcement in our editorial column today the government is soon going to furnish us weather reports for a week ahead. The Courier-Gazette can beat that all hollow. We prophesy rain for Nov. 21, a blizzard on coming events column will betray the cause of our cocksureness.

The Wood-Gillette house, corner of Masonic and High streets, has undergone some extensive alterations and improvements during the summer, and is now being painted in odd but effective colors. The body of the house is cherry and the trimmings are sage green.

O. E. Hahn has the painting contract. Thomas P. Hayden, still on crutches, as the result of a sprained ankle, will resume his duties in the office of the Camden & Rockland Water Co. Saturday.

J. W. Crocker, superintendent of the company goes to Lexington, Mass., to join his wife who is visiting their daughter, Mrs. J. H. Boyden.

Rev. Harry C. Leach, who has recently been on a visit with his mother, Mrs. Emily R. Leach of Grace street, sailed Wednesday from Boston for Bangor, where he will labor as a missionary under the direction of the American Baptist Missionary Association. Mr. Leach was ordained as minister this summer and has also recently taken unto himself a bride.

No season tickets for the Maine Music Festival can be obtained after Thursday, Sept. 27, so all who are going should order them once. Schumann-Heink night will be Tuesday, Oct. 3. John W. Thomas, at The Courier-Gazette office can get you just as good seats as if you were in Portland and without extra cost. Season tickets are \$5.00; for Schumann-Heink concert \$1.00, \$1.50 and \$2.00. It is going to be the most successful festival ever held and you should be there.

"A local paper," says James Wight, "states that English sparrows have been known to build their nests in electric street lights, though the occurrence was somewhat rare. Mose Beaton can tell any inquirer that the occurrence not only is not rare, but is so frequent as to be a nuisance. Daily he removes from many of the lights great bunches of straw, etc., carried there and built into nests by the birds. Sometimes he casts out eggs also, where the industrious birds have not only built the nest but been active still further."

The hay-rick had better not come around at straw hats while the present weather exists.

The Knox county board of underwriters was in session at H. O. Gurdy's office Wednesday afternoon. Routine business was transacted.

Deputy Newbert seized two lots of liquor at the Eastern Steamship Co.'s wharf Thursday, and Deputy Caddy made two seizures at Rockport.

Sheriff Colman and his deputies raided the Point Thursday night, but found no liquors in spite of the fact that 33 kitchen barrooms are said to be in operation there.

J. W. Cackley, who had a very narrow escape by the collapse of a brick vault last week is again on duty at his office, apparently but little the worse for his perilous experience.

The new school building at Stonington is being dedicated this Friday. Judge Campbell and Frank B. Miller, two of Rockland's best spellbinders, were invited to deliver addresses.

CHURCH NOTES

At the First Church of Christ, Scientist, 409 Main street, Sunday services at 11 a. m. Subject of lesson—sermon "Unreality."

The pastor, Rev. E. H. Chapin, will preach in the Universalist church Sunday at 11 a. m. Subject, "The Son of Man's Redemption." Sunday school at 12 m.

At St. Peter's church, Sunday, there will be Holy Communion at 7:30; morning prayer at 10:30; evening prayer at 7:30. Benj. P. Child (tenor) of Boston will sing the offertories. The rector preaches at both services.

The Knox and Lincoln Counties Advertiser Conference will be held with the A. C. church Vinhaven beginning Thursday evening, Sept. 27 and continuing over Sunday. One fare for round trip from all landings of the boats of Vinhaven & Rockland Steamboat Co.

The services at the Adventist church, Willow street, Sunday, will be conducted by the assistant pastor, Rev. K. Taylor, in the absence of the pastor who will supply at Friendship. Preaching at 10:30; Sunday school at 12. Meeting in the evening at 7:10; Loyal Workmen meeting Tuesday evening at 7:30, conducted by the pastor.

There will be another series of interesting meetings in the Pratt Memorial Methodist Episcopal church on Sunday. At 10:30 a. m. Robert Sutcliffe will preach upon "Keeping Ourselves in the Love of God." This will be a new phase of an old subject. Sunday school at 12 o'clock. The Epworth League devotional meeting at 6 p. m. will be conducted by Dr. L. F. Bachelier. Topic for meditation, "The Word to the World." In the main audience room at 7:15 the pastor's subject is "Grass from the Garden of Luther." The pastor will sing the hymns. The choir will take up the life and works of this wonderful man. Special singing by large choir at both services.

The annual report of Rev. E. M. Cousins of 77 churches, corresponding secretary of the General Conference of Congregational churches, contains some very interesting statistics. There have been no deaths among the pastors in active service in the state during the year; but among ministers not in the pastorate there have been three deaths, including that of Thomas E. Brastow, who died in Rockport, Dec. 1905. The statistics indicate some increase in all states except three, viz., additions to membership of 6,869, a gratifying increase of 15 societies and 226 in membership. Two churches have been added during the Conference year, Carroll, in Penobscot county, and Thibault, in Waldo county. No church has been dropped from the roll, and the present number of churches in the state is 262.

The Barbers' Union will have an outing at South Hope, Sunday, Sept. 30.

Fires at the Bog and Ballard Park filled the city Thursday with a familiar fall odor.

Charles E. Simon's house has been painted.

Carl H. H. Thorndike's house is being repaired.

Kenneth Blackington is clerking for Haskell Bros., 103 Adams street.

Robert Adams is employed in the Thomas fish market.

George Groves has been promoted to the superintendent of the North Portland copper shop in place of William Knowlton, who resigned.

The Sturge quartet, formed from the members of the Sturges volunteer fire department, indulged in daily rehearsals at a Brook confectionery store.

Owners of Bog property have been fighting a fierce fire there this week. The fire was started by a hand, and by the use of this and other methods the grass-fire was finally subdued.

The deer season is approaching. Game commissioners report that deer and moose are more plentiful than ever before and there is every prospect for a better season than Maine has ever known. Close time on deer is Oct. 1 and on moose is Nov. 1. The hunting season really began Sept. 15, for the law on partridges was off and the hunters could enter the forest and shoot the small game for a half month, until they can tackle the larger quarry.

One of the features of the North Knox fair at Union next week will be Grand Army day, which occurs Thursday, Sept. 27. The veterans will be entertained all day in the big tent that is used on the Washington campground. Free admission will be granted them; their hospitality by furnishing hot coffee and tea to those who bring a picnic dinner. A special price of 25c will be given to all G. A. R. men who desire a dinner at the eating house on the grounds.

Six members of last year's graduating class from the Rockland high school are expected to attend the conference this fall. They are Fred Black and Jesse Rosenberg, who are preparing for Harvard; Scribner Hyler, who is preparing for Massachusetts Institute of Technology; Don Philbrick, who is preparing for the University of Maine; Maurice Hill, who is preparing for Bowdoin; and Hazel Perry, who is preparing for Wesleyan. Two members of '06 have already gone to college—Frank Knight to Bowdoin and Albert Gardner to University of Maine.

The steamer M. and M., which has been in Rockland during the past year, was towed to Belfast a few days ago and hauled out on the Gilchrist marine railway for repairs. The steamer will be very thoroughly overhauled and placed in excellent condition. As soon as the work is completed on the hull, she will be towed to the docks in the city and her new machinery, engine and boiler will be installed. The steamer is now the property of the Penobscot Bay & River Steamboat Co. and will replace the Rockland on the Bucksport-Camden route in a short time, while that steamer is withdrawn for repairs and needed changes. It is expected that the M. and M. when she appears on the route will come out as the Stockton, the name being changed from the means of the M. and M. of Bangor was in Bath Tuesday and looked over the steamer Island Belle of the Rockbay division of the Eastern Steamship Co. with a view to purchasing her for his Bangor-Camden route. Last summer Capt. Ayer purchased the steamer Rockland in this city and thinks the Island Belle will be a valuable addition to his line. No arrangements for the sale have been made at present.

ESCAPED FROM JAIL.
Frederick Wilson and Edwin Hutchinson, committed for larceny, escaped from the Hancock county jail Monday night. Hutchinson was committed from Stonington. Wilson is rather tall and slim, while Hutchinson is short and stocky, both were of light complexion and blue eyes, were smooth shaven, Hutchinson's hair being clipped short. As far as Sheriff Mayo knows neither of the men had any clothing except the regulation half blue and half brown jail suits and underclothes, nor had any money or weapons, so that they were not very well fitted out to take the chances of eluding all the deputies, constables and police in this part of the state.

The big houseboat, which has been hauled up for the winter at the Whitney wharf in the cove, is attracting a great deal of attention. The houseboat has been down in the Thoroughfare all summer, the owner depending upon tugs for motive power whenever he wished a change of scenery. The boat will be hauled after by a keeper this winter.

One divorce has been decreed: Sarah H. Leigher from Martin G. Leigher; parties of Rockland. For cruel and abusive treatment. Hints for libelant. Admitted to citizenship: Carl A. M. Christoferson, of Rockland, a native of Christiania, Norway; John T. Walley, of Round Pond, Bremen, a native of Preston, Lancashire, England.

The grand jury was expected to rise about the time The Courier-Gazette went to press this Friday forenoon. It is said that there will be a good many indictments, covering a wide variety of crimes. The Sturge's deputies have been active during the jury session and the dealers of the ardent are shivering in their shoes. Rumor also has it that there will be an election sequel in the form of one or more indictments for bribery. Such matters are supposed to be strict jury secrets but there appears to have been a leak somewhere and the culprit will hear from the county attorney if his identity becomes known.

IN SUPREME COURT.

Special Interest Felt In Grand Jury Session—Will Probably Report This Friday Afternoon.

Supreme court convened Tuesday forenoon and the September term, as it is called for convenience is in full swing. Not as many civil cases are assigned for trial as might be expected after the long vacation, but a busy criminal term is in prospect. The presiding judge is the chief justice, Hon. Andrew P. Wiewell of Ellsworth. His stenographer is C. O. Harrows of Portland. The court organization and jury makeup is as follows:

Clerk—Gilford B. Butler, South Thomaston.

County Attorney—Philip Howard, Rockland.

Sheriff—Adelbert J. Tolman, Rockland.

Deputy Sheriff—George W. Gushue, Appleton, clerk; John S. Smalley, St. George, in charge of grand jury; D. J. Bowley, Hope, in charge of first traverse jury; Lewis G. Clark, Vinahaven, in charge of second traverse jury; Charles E. Duffy, Camden, and Henry J. Libby, Warren, deputies at large.

Messenger—Frederick A. Packard, Rockland.

Chaplain—Rev. Russell Woodman, rector of St. Peter's Episcopal church, Rockland.

Grand Jury—William O. Luce, Washington, foreman; Henry H. Payson, Hope, clerk; Everett C. Andrews, Thomaston; Everett Beverage, North Haven; Samuel H. Brown, Friendship; Charles R. Chapman, Camden; Arthur Fish, Appleton; George Jamison, Union; Henry R. McIntire, Warren; Denny P. Hall, Thomaston; Amos W. Orne, Cushing; Frederick A. Sherer, Rockland; Willard Sleeper, South Thomaston; Henry W. Smith, Vinahaven; Sewell L. Wall, St. George; Samuel E. Wadsworth, Camden.

Excused Grand Jury—Baxter Curtis, Camden.

First Traverse Jury—John S. Gilden, Washington, foreman; Nelson U. Blackington, Rockland; George Fred Bowser, Thomaston; Weston Carroll, Union; W. Herbert Clough, Rockport; Edgar C. Crawford, Warren; George A. Crockett, Rockland; Hubert O. Grant, North Haven; Melvin J. Harris, St. George; Charles E. Hastings, Thomaston; Hanson G. Ingraham, Rockland; and Frank A. Joseph, Camden.

Second Traverse Jury—George H. Upham, Rockport, foreman; James C. Morse, Camden; John P. Patterson, Hurdville, Hope; Arthur P. Pines, South Thomaston; Arthur L. Pines, Vinahaven; Fred H. Reed, Thomaston; Josiah Reynolds, Vinahaven; Albert V. Robinson, Cushing; Winslow L. Robinson, St. George; William M. Sullivan, Rockland; Lucius A. Taylor, Appleton; William Thomas, Friendship.

Excused Traverse Jury—Herbert Brown, South Thomaston; Frank P. Larrabee, Rockland; Clarence L. Marney, Rockland; George B. Payson, Hope; William J. Robertson, Rockland; and Herbert W. Walz, Warren.

Sylvester Smith of Rockport failed to appear. There being no supplementary jurors special venire for additional traverse jurors was issued forthwith.

The Rockland board of aldermen convened Wednesday forenoon and drew as traverse jurors Herbert E. Bowden, George L. Hall, Joseph Greenhalgh and Edward E. Davis.

The case of Harry J. Jackson vs. C. K. Miller of Camden has been non-suited.

H. T. Thurston vs. Fred M. Giles and L. M. Staples, trustee. (W. M. Hilton, of Boothbay Harbor, for plaintiff; Staples for defendant.) Action on account. The principal parties reside at Boothbay Harbor. Plaintiff is a machinist, and sued to recover \$46 balance alleged to be due from Giles, who is a contractor, for use of a boiler for repair work and for machine supplies.

The defense is an account in set-off. Verdict for defendant, to whom jury found the sum of \$2.94 is due from plaintiff to correctly balance the account.

Harris Lenfest vs. Jason Robbins. (Staples; Johnson.) Action to recover damages for bodily injuries alleged to have been received from an assault made by defendant. The case was tried at the September term, 1905, when a verdict for plaintiff was rendered, with \$200 damages. It then went to Law court on exceptions, which were sustained. The second trial was begun Thursday afternoon and is in progress.

Charles L. Wing vs. Samuel L. Ritchie. (Gould for plaintiff; Arthur Ritchie, of Belfast, for defendant.) Action for breach of contract to convey a farm in the town of Monroe, Waldo county. Plaintiff had been living on defendant's farm, and alleged that, in 1902, an agreement was made that he should buy the farm for \$1,000 and pay for it in installments, which he had since turned over to defendant in accordance with the agreement, till last spring, when defendant rescinded the contract and had him served with notice to quit. The defense is a denial of the alleged contract, and that, if it be held that such contract existed, it was broken by plaintiff by his alleged act in abandoning the property and moving to Rockport. Verdict for the plaintiff, \$2.94.

One divorce has been decreed: Sarah H. Leigher from Martin G. Leigher; parties of Rockland. For cruel and abusive treatment. Hints for libelant. Admitted to citizenship: Carl A. M. Christoferson, of Rockland, a native of Christiania, Norway; John T. Walley, of Round Pond, Bremen, a native of Preston, Lancashire, England.
